Changes for Quick-Key 4.1

When Touch ON/OFF at QK-PC-Interface sound was missing.

-Fixed

When updating from DOS IMS group names; were setting to DISABLED.

-Fixed

The set to amount/value feature as per the DOS IMS is not needed, since you can just overwrite the amount field.

Changed the way the amount is treated for Currency in the QK-Account to make editing easier.

Changed the behavior of all currency fields throughout the software to conform with what you expect from such a field.

Added a new field and button for adding to amount/value; this feature can also be used to subtract

Added a \$.25 and\$.50 button.

Installation for Quick-Key 4.1 upgrade from 4.0
